“It’s 2019, baby! This is the year to dust off your suitcase, track down your passport, and tell your boss you’ll be missing all those “mandatory” meetings for the next week or two—you’ve got places to be!

Where are the best places to travel this year? To compile our list, we asked 1,000 Canadians where they would recommend travellers visit in 2019. The answers were vast and varied, but we did notice certain patterns: Numerous respondents recommended travelling within Canada itself, Manitoba showed up more than it ever has before, and international destinations were on the rise. Using the answers as our baseline—and listed in no particular order—we’re happy to present the 19 best places to travel in the world in 2019. Let’s get to it!”
